PROFESSIONAL SUMMARY

Product Designer with 5+ years of UX/UI experience across enterprise platforms and B2B SaaS. Designs multi-role dashboards and complex workflows through research, information architecture, interactive prototyping, and usability testing. Partners with product and engineering teams to turn ambiguous requirements into clear interfaces and detailed implementation handoffs.

EXPERIENCE

Product Designer • Paradigm IT

Hyderabad, India | Aug 2025 - Present

- Architected multi-role dashboards and governance flows for an enterprise AI learning platform, translating complex requirements into clear, buildable interfaces.
- Partnered with product and engineering teams to map workflows, create interactive prototypes, and deliver detailed specifications for implementation.
- Led end-to-end UX/UI for the learning platform, which gained national recognition at the 2026 AI Summit and contributed to seed funding.
- Designed Troskite 365 onboarding and primary task flows for a sports education SaaS product that gained 400+ active subscriptions after launch.
- Scaled a tokenized design system across B2B modules, applying WCAG 2.1 accessibility practices and improving frontend handoffs.

Product Designer • Prasthana Software Solutions

India | Apr 2022 - Dec 2024

- Redesigned core sports management SaaS modules through user research, journey mapping, wireframing, interactive prototypes, and release.
- Tested designs with users and refined operational flows, increasing engagement by 25% and reducing task completion time.
- Built a component library adopted by 3 product teams, defining consistent UI patterns and interaction standards.
- Facilitated stakeholder workshops and iterative design reviews; selected as Agile trainer for 2 teams and earned 2 Spot Awards in 2023.

UI Designer • Buildup Service

India | Mar 2021 - Apr 2022

- Delivered user research, journey maps, responsive UI, and developer-ready specs across web and mobile product initiatives.
- Boosted user retention by 20% by identifying drop-off friction points through usability testing and behavioral data analysis.
- Defined foundation design tokens and reusable UI patterns to maintain brand consistency across rapid sprint cycles.

Junior UI/UX Designer (Freelance & Contract)

India | Jan 2021 - Mar 2021

- Designed responsive e-commerce and EdTech interfaces, conducting rapid wireframing and user validation during short turnaround cycles.
