

# YOGESH BATTULA

## PRODUCT DESIGNER | AGILE PROJECT MANAGER

Hyderabad, India | yogeshbattula123@gmail.com | 7989425351 | Portfolio

### PROFESSIONAL SUMMARY

Product Designer and Agile Project Manager with 5+ years of experience delivering digital products across Agile environments. Certified Scrum Master experienced in sprint planning, daily stand-ups, retrospectives, cross-functional coordination, stakeholder management, and distributed-team delivery. Strong product design background spanning user research, UX/UI, wireframing, prototyping, and design systems, with measurable gains in engagement, retention, user satisfaction, and delivery speed.

### CORE COMPETENCIES

Agile Project Management | Project Planning & Delivery Coordination | Scrum | Sprint Planning | Daily Stand-ups | Retrospectives | Stakeholder Management | Cross-functional Delivery | Agile Coaching | Agile Software Delivery | Product Design | UX/UI | User Research | Wireframing | Prototyping | Design Systems | Usability Testing

### PROFESSIONAL EXPERIENCE

#### Product Designer | Pradigm IT | Aug 2025 - Present

- Lead end-to-end product design for enterprise and B2B SaaS initiatives, creating user flows, wireframes, interactive prototypes, and developer-ready specifications.
- Facilitate sprint planning, design reviews, and retrospectives to keep product managers and engineers aligned through iterative delivery.
- Coordinate design-to-development handoffs and maintain a living design system, partnering with product managers, developers, and stakeholders to improve consistency and reduce handoff friction.

#### Scrum Master (Agile Project Delivery) | Freelance | Jan 2025 - Jun 2025

- Led sprint planning, daily stand-ups, retrospectives, and cross-team coordination across distributed teams, improving velocity and team cohesion.
- Delivered UX prototypes and user flows alongside Scrum responsibilities while supporting Agile delivery, team coordination, and sprint execution.

#### Product Designer | Prasthana Software Solutions | Apr 2022 - Dec 2024

- Led end-to-end redesign of core features in a sports management platform, increasing user engagement by 25% and reducing task completion time.
- Built a scalable design component library adopted across 3 product teams, enabling faster iteration and more consistent developer handoffs.
- Integrated stakeholder and usability feedback into iterative delivery cycles; selected as Agile trainer for 2 cross-functional teams and received 2 Spot Awards in 2023.

#### UI Designer | Buildup Service | Mar 2021 - Apr 2022

- Conducted UX research, journey mapping, wireframing, and interface design, improving user retention by 20% through targeted UX enhancements.
- Established early-stage design system standards and collaborated with developers to deliver responsive, pixel-accurate implementation.

#### Junior UI/UX Designer | Freelance & Internship Projects | Jan 2021 - Mar 2021

- Delivered UI/UX solutions for e-commerce and EdTech startups, using usability testing and rapid iteration based on user feedback.
