

EXPERIENCE

Product Designer • Pradigm IT

Hyderabad, India, Aug'25 - Present

Led end-to-end product design for complex enterprise and B2B SaaS platforms, translating intricate business requirements into intuitive digital workflows.

ENTERPRISE & B2B SAAS PLATFORMS

- Led end-to-end product design for complex enterprise and B2B SaaS platforms, translating intricate business requirements into intuitive digital workflows.
- Partnered closely with product and engineering stakeholders to unpack ambiguous requirements into clear, buildable workflows that automated manual processes and increased operational efficiency.
- Designed scalable, system-level UX solutions by mapping multi-step enterprise user journeys across complex, multi-role workflows.
- Delivered high-fidelity prototypes and developer-ready specs that streamlined workplace productivity and reduced ambiguity during implementation.
- Managed and scaled a living enterprise design system, ensuring UI consistency across multiple B2B modules.
- Accelerated design-to-development handoffs in a fast-paced Agile environment by maintaining reusable, well-documented components and patterns.

Product Designer • Prasthana Software Solutions

India, Apr'22 - Dec'24

Led end-to-end redesign of core features in a sports management platform, from research and wireframing through high-fidelity prototyping and delivery.

- Led end-to-end redesign of core features in a sports management platform, from research and wireframing through high-fidelity prototyping and delivery.
- Increased user engagement by 25% and reduced task completion time through targeted UX improvements to key user flows.
- Built a scalable design component library adopted across 3 product teams, standardizing UI patterns and interaction behavior.
- Enabled faster iteration and more consistent developer handoffs by maintaining the component library alongside evolving product needs.
- Integrated stakeholder and usability feedback into iterative delivery cycles, refining designs across multiple release rounds.
- Selected as Agile trainer for 2 cross-functional teams and received 2 Spot Awards in 2023 for design and collaboration impact.

UI Designer • Buildup Service

India, Mar'21 - Apr'22

Conducted UX research, journey mapping, wireframing, and interface design across multiple product initiatives.

- Conducted UX research, journey mapping, wireframing, and interface design across multiple product initiatives.
- Improved user retention by 20% through targeted UX enhancements informed by research and usability findings.
- Established early-stage design system standards, laying the groundwork for consistent UI across future releases.
- Collaborated closely with developers to deliver responsive, pixel-accurate implementation from design to production.

Junior UI/UX Designer • Freelance & Internship Projects

India, Jan'21 - Mar'21

Delivered UI/UX solutions for e-commerce and EdTech startups, covering research, wireframing, and interface design.

- Delivered UI/UX solutions for e-commerce and EdTech startups, covering research, wireframing, and interface design.
- Applied usability testing and rapid iteration based on user feedback to refine designs across short project cycles.

EDUCATION

Bachelor's, Civil Engineering

Vignana Bharathi Institute of Technology

CERTIFICATIONS

Certified Scrum Master

CSM • 2025

Google UX Design Certificate

Coursera • 2025

Designboat UX Bootcamp

2022

SKILLS

Design

Product Design, UX/UI Design, User Research, Wireframing, Prototyping, Design Systems, Usability Testing, Interaction Design, Accessibility (WCAG 2.0/2.1 AA), AI-Assisted Design

AI & Prototyping Tools

ChatGPT, Lovable, Bolt, Replit, Antigravity IDE, Midjourney, OpenAI Sora, Gemini API

Standard Tools

Figma, Adobe XD, Sketch, Photoshop, Illustrator, JIRA, Confluence, MS Project, Trello, Notion
